

The Build Financial Wellness™

Savings Reset Kit

A practical workbook to help you clarify your savings goal, create a plan, and build momentum.

Build Financial Wellness™
OUR NAME IS OUR MISSION

Welcome

Thank you for downloading the Build Financial Wellness™ **Savings Reset Kit!**

Taking time to think intentionally about your financial goals is an important step, one that often gets overlooked in the busyness of everyday life. Whether your goal is large or small, meaningful progress begins with clarity, a plan, and consistent action.

This workbook is designed to help you define what you're working toward, create a realistic path forward, and build momentum one step at a time.

As you work through these pages, remember: you don't have to have everything figured out today. Focus on your next step, celebrate your progress along the way, and keep building toward what matters most.

Let's get started!

This workbook is for general financial education and informational purposes. It does not provide legal, tax, investment or other licensed professional advice. You remain responsible for your decisions and should consult an appropriate qualified professional when needed.

Savings Goal Reflection

1 What are you saving for?

2 Why is this goal important to you?

3 What would achieving this goal make possible?

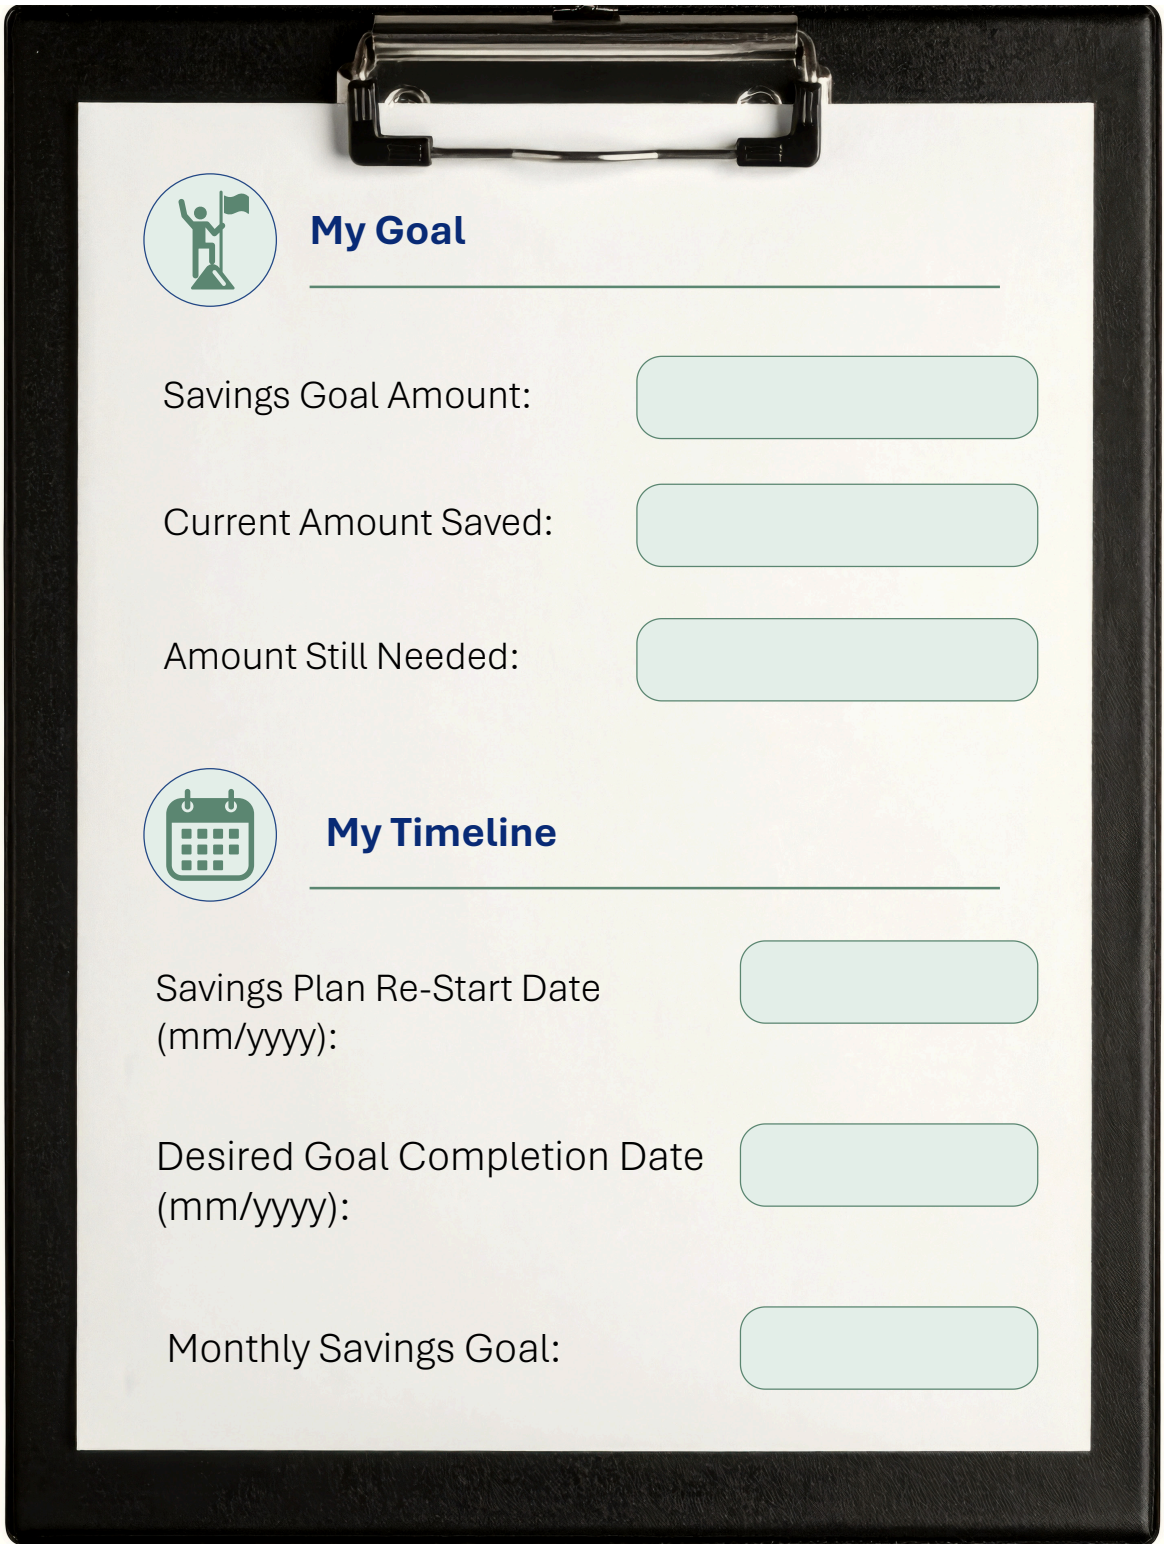

4 On a scale of 1-10, how motivated do you feel to reach this goal?

1 = Not a priority right now

10 = One of my top priorities right now
